Hello Governor Cooper,

I am writing to ask that you please oppose the Atlantic Coast Pipeline. The ACP is harmful to North Carolinians' health and our state's precious resources. From dangerous gas compression stations in Northampton county that threaten our air, to the 320 streams and wetlands in Eastern North Carolina that the pipeline must cross, this is an unconscionably immoral project for Dominion & Duke to build. Not only will the pipeline harm tangible natural resources that will impact North Carolinians directly, it will be carrying fracked gas. This means more methane emissions at the point of extraction, an especially potent greenhouse gas. This means more carbon dioxide emissions at the point of use. If North Carolina is to uphold the ideals of the Paris Agreement, we must prevent all new fossil fuel development and accelerate our transition to renewable energy. Please stop the Atlantic Coast Pipeline for the sake of North Carolina and the sake of the future of our world.

Thank you,  
Thomas Huzij
